INTERSHIP

Web Application Development - **Duskcoder Technosoft Corp..**

Jan 2 - Apr 2 2024

App Development - **Fresa Technologies Pvt.Ltd**

July 17 - July 17 2022

PROJECTS

Bus Ticket Reservation System — Java,mysql

This project aims to design and develop a user-friendly system for booking and managing bus tickets. The system enables passengers to easily search, book, and cancel bus tickets, making bus travel more convenient and efficient.

QR Code Generator with React JS — Html,Css,React

The main theme centers on empowering users to easily generate QR codes that can be used for a variety of purposes, such as sharing contact information, URLs, or product details.

Puzzle game using Python — Python

The main theme behind developing a puzzle game using Python is to provide a creative and competitive environment for the players who will use this system. The important part of this game is that the user can upload their desired images to play.
